Introduction	xi
PART I: STUDIES UTILIZING PRICE AND EXPENDITURE DATA	
1 Do Agricultural Commodity Prices Respond to GMO Bans? <i>Joe L. Parcell and Nicholas G. Kalaitzandonakes</i>	1
2 Consumer Acceptance and Labelling of GMOs in Food Products: a Study of Fluid Milk Demand <i>Kristin Kiesel, David Buschena and Vincent Smith</i>	9
3 Consumer Purchasing Behaviour towards GM Foods in The Netherlands <i>Leonie Marks, Nicholas G. Kalaitzandonakes and Steven Vickner</i>	23
PART II: STUDIES UTILIZING EXPERIMENTAL METHODS	
4. The Welfare Effects of Implementing Mandatory GM Labelling in the USA <i>Wallace E. Huffman, Matthew Rousu, Jason F. Shogren and Ababayehu Tegene</i>	41
5 Using Simulated Test Marketing to Examine Purchase Interest in Food Products that are Positioned as GMO-free <i>Marianne McGarry Wolf, Angela Stephens and Nicci Pedrazzi</i>	53
PART III: STUDIES UTILIZING WILLINGNESS-TO-PAY METHODS	
6. Measuring the Value of GM Traits: the Theory and Practice of Willingness-to-pay Analysis <i>Simbo Olubobokun and Peter W.B. Phillips</i>	61
7. Willingness to Pay for GM Food Labelling in New Zealand <i>William Kaye-Blake, Kathryn Bicknell and Charles Lamb</i>	73

8 Contingent Valuation of Breakfast Cereals Made of Non-biotech Ingredients	83
<i>Wanki Moon and Siva Balasubramanian</i>	
9 A Comparative Analysis of Consumer Acceptance of GM Foods in Norway and in the USA	95
<i>Wen D. Chern and Kyrre Rickertsen</i>	
10 Comparing Consumer Responses toward GM Foods in Japan and Norway	111
<i>Jill J. McCluskey, Kristine M. Grimsrud and Thomas I. Wahl</i>	
11 Willingness to Pay for GM Foods: Results from a Public Survey in the USA	117
<i>Hsin-Yi Chen and Wen S. Chern</i>	
PART IV: STUDIES OF CONSUMER ACCEPTANCE	
12 A Comparison of Consumer Attitudes Towards GM Food in Italy and the USA	131
<i>Marianne McGarry Wolf, Paola Bertolini and Jacob Parker-Garcia</i>	
13 Consumer Attitudes Towards GM Food in Ireland and the USA	143
<i>Marianne McGarry Wolf, Juliana McDonnell, Christine Domegan and Heidi Yount</i>	
14 Attitudes toward GM Food in Colombia	155
<i>Douglas Pachico and Marianne McGarry Wolf</i>	
15 Consumer Acceptance and Development Perspectives of Functional Food in Germany	163
<i>Heiko Dustmann and H. Weindlmaier</i>	
16 Factors Explaining Opposition to GMOs in France and the Rest of Europe	169
<i>Sylvie Bonny</i>	
PART V: STUDIES OF ECONOMIC CONSEQUENCES	
17 Introducing Novel Protein Foods in the EU: Economic and Environmental Impacts	189
<i>Xueqin Zhu, Ekko van Ierland and Justus Wesseler</i>	
18 Consumer Attitudes Towards GM Foods: the Modelling of Preference Changes	209
<i>Chantal Pohl Nielsen, Karen Thierfelder and Sherman Robinson</i>

Consumer Acceptance of Genetically Modified Foods

Edited by
R.E. Evenson,
Yale University, USA, and
V. Santaniello,
CEIS – University of Rome
'Tor Vergata', Italy

In recent years there have been increasing concerns about the potential health risks of genetically modified foods. Consumer perceptions vary between countries, but are probably most pronounced in Europe and least in North America. These have had a profound and controversial effect on the development of markets for GM products.

This book presents a compilation of studies of consumer acceptance of GM foods. These studies utilized different methods and evidence including: price and expenditure data; experimental methods; 'willingness to pay'; consumer attitudes; and economic consequences. Case studies cover a range of countries, including the USA, several European countries, Japan, New Zealand and Colombia. Chapters are based on papers presented at meetings of the International Consortium on Agricultural Biotechnology Research, held in Ravello, Italy. The book will be of significant interest to researchers in biotechnology and agricultural economics.
