Quantitative Aptitude is a key component to unlocking a winning CAT score and no author does the subject justice more than Arun Sharma, whose vast experience in his field is reflected in every chapter of *Quantitative Aptitude for CAT*. A stellar product in its category, this book is now in its seventh edition. Not only does it follow the latest trends and question patterns for CAT, it is also found immensely useful by students for other management entrance tests like XAT, SNAP, IIFT and so on. The book comprehensively covers all topics, including Numbers, Average and Mixtures, Arithmetic and Word-based Problems, Geometry, Algebra, Counting, etc in a very accessible and easy manner. Besides teaching the subject, the author instructs aspirants successfully to strategise, manage time and analyse their knowledge pattern accurately to make the most of a time-bound elimination exam. The book provides mock test papers for continuous test rehearsal and has problems of varying difficulty levels for rigorous practice. It's a must read for any and all CAT aspirants today.

KEY FEATURES

- Comprehensive theory as per latest syllabus and pattern
- Topics divided into easily understandable 'blocks'
- Plenty of short-cut techniques in problem solving
- Practice tests covering all possible types of questions
- Questions divided into three 'LODs' (Level of Difficulty)
- Additional block-wise practice tests to ensure no probable question type is missed out
- Section on training ground teaches higher-end problem solving in real time. It is a section which tells students exactly how to think inside the examination hall when faced with questions of varying difficulty levels

What's new?

- An introductory write-up on the QA section of the online CAT to give a holistic view of how to approach the online CAT
- Comprehensive solutions (wherever relevant) to questions in all LODs of all chapters
- New questions in LODs introduced (in all chapter's) to cover for any missing question types
- New questions without options introduced for all relevant chapters as per the new pattern of questions
