

WHAT IS IT THAT WE AS A NATION ARE MISSING?

Why, given all our skills, resources and talents, do we settle so often for the ordinary instead of striving to be the best?

At the heart of *Ignited Minds* is an irresistible premise: that people do have the power, through hard work, to realize their dream of a truly good life. Kalam's vision document of aspiration and hope motivates us to unleash the dormant energy within India and guide the country to greatness.

'Kalam's can-do approach . . . is a lesson for all those who curl their lips at any talk of India achieving greatness in the near future' *India Today*

'A true patriot's guide to a better nation' *Pioneer*
