FEED SUPPLEMENTS for
LIVESTOCK
and **POULTRY**

The book is dedicated to all the contributors. We must acknowledge and express our thanks to our families and friends who have been incredibly supportive in our almost single minded effort to bring this book.

Pankaj Kumar Singh

Ravindra Kumar

Contents

<i>Foreword</i>	<i>v</i>
<i>Preface</i>	<i>vii</i>
1. Feed Supplements: An Overview	1
<i>Pankaj Kumar Singh and Ravindra Kumar</i>	
2. Bypass Fat Supplementation for Dairy Animals	6
<i>Prafulla Kumar Naik</i>	
3. Significance of Fatty Acids Supplementation in Livestock and Poultry	25
<i>Kaushalendra Kumar, Pankaj Kumar Singh and Sanjay Kumar</i>	
4. Rumen By-pass Protein Technology	49
<i>Sanjay Kumar, Rajni Kumari and Kaushalendra Kumar</i>	
5. Non Proteinous Nitrogen Supplementation in Ruminants	68
<i>Pankaj Kumar Singh, Ravindra Kumar, Chandramoni and Kaushal Kumar</i>	
6. Recent Advances in Amino Acid Nutrition in Poultry	85
<i>Deben Sapkota</i>	
7. Calcium and Phosphorus Supplementation in Livestock and Poultry	99
<i>Pankaj Kumar Singh, Chandramoni, Avinash Kumar and Amit Ranjan</i>	

8. Sulphur in Ruminant Nutrition	116
<i>Nisha Jha</i>	
9. Balancing Dietary Cation Anion for Periparturient Animals	128
<i>Vinod Kumar</i>	
10. Trace Mineral Supplementation in Farm Animals	137
<i>Vinod Kumar, Debashis Roy and Muneendra Kumar</i>	
11. Organic Selenium as Feed Supplement for Livestock and Poultry	159
<i>Kamdev Sethy and Kaushalendra Kumar</i>	
12. Significance of Chromium Supplementation in Poultry	180
<i>Jyoti Palod</i>	
13. Significance of Heavy Metals in Livestock and Poultry	198
<i>Debashis Roy, Vinod Kumar and Muneendra Kumar</i>	
14. Organic Trace Minerals in Animal Nutrition	222
<i>Guru Prasad Mandal</i>	
15. Area Specific Mineral Mixture for Optimum Livestock Health and Production	233
<i>Biswanath Sahoo, Amit Ranjan, Ranjan Kumar Mohanta and Akash Chandrakar</i>	
16. Vitamin Supplementation in Livestock and Poultry	258
<i>Ravindra Kumar, Pankaj Kumar Singh and Avinash Kumar</i>	
17. Recent Advances in Nutraceuticals for Livestock Health	278
<i>Md. Moin Ansari</i>	
18. Commercial Nutraceuticals for Livestock and Poultry	294
<i>Ankit Kumar and Kaushal Kumar</i>	
19. Feed Supplements for Improving Fertility in Female Livestock	323
<i>Nishant Kumar, Mamta Sharma, Vivek Prasad Gupta, Santosh Shinde and Jyoti Manjusha</i>	
20. Supplements for Quality Semen Production	345
<i>Thakur Krishna Shankar Rao</i>	

21. Nucleotides Supplementation in Livestock and Poultry	362
<i>Shardul Vikram Lal, Rajni Kumari and Sanjay Kumar</i>	
22. Single Cell Protein for Livestock Feeding	380
<i>Rajni Kumari, Sanjay Kumar, Kaushalendra Kumar and Shanker Dayal</i>	
23. Hydroponically Sprouted Grains as Dairy Feed	391
<i>Prafulla Kumar Naik</i>	
24. Distillers' Dried Grains with Solubles in Cattle and Poultry Feed	408
<i>Amit Ranjan, Biswanath Sahoo and Pankaj Kumar Singh</i>	
25. Azolla for Sustainable Livestock and Poultry Production	426
<i>Anupam Chatterjee</i>	
<i>Index</i>	443

Index

A

- Abortions 299
Absorption 100
Acanthopanax senticosi 348
Acinetobacter calcoaceticus 381
Acromobacter delvacuate 381
Acute selenium poisoning 172
Adenosine triphosphate (ATP) 100
Aeromonas hydrophilla 381

Feed Supplements for Livestock and Poultry

This book on Feed Supplements for Livestock and Poultry deals with the basic principles, technology and application of feed supplements for livestock and poultry in a systematic and comprehensive manner. This book contains twenty five chapters contributed by 30 eminent scientists of animal nutrition, which highlights the significance of supplementation of bypass fat, essential fatty acids, rumen by-pass proteins, non-protein-nitrogen sources, ideal protein, essential amino acids, essential macro and micro-minerals, organic trace minerals, area specific mineral mixtures, vitamins, commercial nutraceuticals, nucleotide, single cell protein, hydroponically sprouted grains, azolla, distillers' dried grains etc. for sustainable livestock and poultry production. Each chapter of the book attempts at providing clear and updated information on feed supplements supported with good amount of the experimental evidence and references which will enable the students and research workers to obtain information quickly when necessary. The book is useful to students of animal sciences, teachers and scientists of animal nutrition discipline, personnel of feed industry, field veterinarians, animal husbandry extension workers and progressive animal farmers.

Dr. Pankaj Kumar Singh is presently working as an Assistant Professor in the Department of Animal Nutrition at Bihar Veterinary College, Patna, Bihar, India. During his 12 years of teaching and research experiences in the field of Animal Nutrition and Feed Technology, he has published 3 books, 9 book chapters, 5 laboratory manuals, 50 research papers and 35 technical articles.

Dr. Ravindra Kumar is currently working as Senior Scientist (Animal Nutrition) at Central Institute for Research on Goats, Makhdoom, Mathura under Indian Council of Agricultural Research, New Delhi.

Dr. Sanjay Kumar is an Assistant Professor in the Department of Animal Nutrition at Bihar Veterinary College, Patna. He obtained M.V. Sc. and Ph. D in Animal Nutrition from National Dairy Research Institute, Karnal. He is having six years of experience in teaching, research and extension in the field of Animal Nutrition.

Dr. Kaushalendra Kumar is an Assistant Professor in the Department of Animal Nutrition at Bihar Veterinary College, Patna. He completed M.V.Sc. in Animal Nutrition from National Dairy Research Institute, Karnal and Ph.D. in Animal Nutrition from Indian Veterinary Research Institute, Izatnagar.
