Management Information System, 17e
 ISBN - 9789356060876

About the author - Kenneth C. Laudon, New York University and Jane P. Laudon Azimuth Information Systems

Since the last edition in 2019, a lot has changed in the way data is managed and processed as industries grow and technology changes impact the course of MIS. The book captures concepts like virtual workplace, cloud computing, Big Data and the Internet of Things, Artificial Intelligence, and many more that have emerged and evolved. Discussion on the impacts of the COVID-19 pandemic on business uses of information systems is a key highlight. This edition includes case studies of companies, like WhatsApp and Facebook, Walmart, Indian Premier League, Google, Amazon, and many more, in the Indian context. The text is reader-friendly with a feature-rich layout to ensure maximum engagement and understanding. This book is useful for students as well as managers in organizations seeking guidance in implementing or improving effectiveness and efficiency through MIS.

Management, 15e
 ISBN - 9789356064911

About the author - Stephen P. Robbins is Emeritus of management at San Diego State University.

Mary Coulter is Professor Emeritus of Management at Missouri State University.

Amy Randel, San Diego State university
Rajeesh Viswanathan - Associate Professor, Dept of International Business School of Management Pondicherry Central University.

About the book - With a renewed focus on skills and careers, Management, 15e, can help better prepare students to enter the job market. The book vividly illustrates effective management theories by incorporating the perspectives of real-life managers. Through examples, cases, and hands-on exercises, students will see and experience management in action, which in turn will help them understand how the concepts they're learning actually work in today's dynamic business world.
