“Biosecurity measures start at the farm gate with washing vehicles, footwear and anything else that has come into contact with soil.”

Shannon Paton
*Banana grower,
Nerada, Queensland*

About the Book

This book is written basically for dairy producers across India to keep their herds healthy and economically productive by mean of developing a biosecurity plan to their own farms and to proceed with the implementation of relevant good biosecurity practices. This book is also useful for those who do business with the dairy farm or engage in the farm visit. Everyone has a role to play in biosafety and can work positively to biosecurity efforts on the farm. The objective of this effort is to explain how producers can achieve these results through a set of best practices and a list of key activities. The dairy farmers produce food for human consumption and therefore, food safety is a priority for the industry. The implementation of effective practices used to support the production of safe and wholesome dairy products that have been quality control object supported for sustainable future of dairy farms in India, both locally and regionally. In this book, Producers are encouraged to develop a biosecurity plan for their own farm to implement best practices that meet the needs of their dairy farm. The information used for the publication of documentation of this book for producers comes from different documents. List has been given at the end of the book. The authors do hope that after reading this book dairy farm producer would be able to develop a framework that facilitates the development of an own biosecurity plan to the farm and focus on the main stages of the development of a biosecurity plan for each of the preparatory stages.

Contents

1.	Status of dairy in India	09
2.	Biosecurity in Dairy Herd	17
3.	Biosecurity in Dairy Health	21
4.	Biosecurity Introduction and Movement of Animals	35
5.	Biosecurity in Housing Systems and Ventilation	45
6.	Biosecurity in Cleaning and Hygiene	61
7.	Biosecurity in Staff and Visitors Control	87
8.	Biosecurity in Infection Control	101
9.	Most Common Diseases of Dairy Herd	107
	1. Bacterial Diseases	
	2. Viral Diseases	
	3. Metabolic Diseases	
	4. Parasitic Diseases	
10.	Vaccination Schedule for Cattle and Buffaloes	117
11.	Glossary	119
	List of References	124
