

### About the Book

The purpose of this book is to convey to its readers some conception of the relative importance of the poultry industry as a branch of agriculture, the fundamental principles involved in various poultry practices, and up-to-date information concerning methods of poultry production. The more important economic factors in producing and marketing poultry products are given due consideration.

Success in poultry raising depends largely upon one's knowledge of the business and one's ability to produce and market poultry and poultry products efficiently. Fundamental principles must be understood to some extent at least before the most economical methods can be practiced intelligently. For this reason the major aspects of poultry production and marketing are discussed, first with respect to principles involved and second, with respect to practices to be followed.

This book is an attempt to integrate the facts of modern science for the benefit of students of poultry husbandry and practical poultrymen. The preparation of the book has been inspired in the spirit of rendering the greatest possible service to the poultry industry.

of Successful Poultry  
Production**

## CONTENTS

---

<i>Preface</i>	<i>v</i>
<b>1. EGGS AND POULTRY PURCHASE, STORAGE, AND PREPARATION PRACTICES OF CONSUMERS IN SELECTED ASIAN COUNTRIES</b>	<b>1-23</b>
Kadri Koppel, Suntaree Suwonsichon, Uma Chitra, Jeehyun Lee, and Edgar Chambers IV	
Introduction	2
Experimental Section	3
Results and Discussion	5
Conclusions	14
References	15
<b>2. THE BREEDS OF CHICKEN</b>	<b>24-39</b>
American Breeds	28
Asiatic Breeds	33
English Breeds	35
Mediterranean Breeds	35
Other Breeds	37
Defects and Disqualifications	37
Relative Popularity of Breeds	39
<b>3. THE BIOLOGY OF THE CHICKEN</b>	<b>40-69</b>
The Body Covering	40
The Skeletal System	44
The Muscular System	45
The Respiratory System	45
The Nervous System	45
The Circulatory System	45
The Digestive System	46

*This page left intentionally blank.*

The Reproductive System	48
The Formation and Structure of the Egg	51
The Endocrine Regulatory System	59
Hormonal Control of Ovulation and Laying	62
Hormone Influence on Comb and Gonad Development	64
Hormone Influence on Feather Structure and Pigmentation	66
Hormone Influence on Fattening	68
<b>4. BREEDING PRINCIPLES</b>	<b>70-95</b>
Inheritance of Characters	72
Sex-linked Inheritance	78
Genes with Various Effects	84
Principles in Controlling Inheritance	89
<b>5. BREEDING PRACTICE</b>	<b>96-134</b>
Securing Good Fertility	96
Breeding for High Hatchability	98
Breeding for High Viability	101
Breeding for Early Feathering	104
Breeding for Rapid Growth, Good Body Conformation, and Superior Fleshing	106
Breeding for High Egg Production	111
Breeding for Improved Egg Quality	124
Methods of Selecting Breeding Stock	129
<b>6. INCUBATION PRINCIPLES AND PRACTICE</b>	<b>135-163</b>
The Physiology of Embryo Development	141
Physical Factors Governing Successful Incubation	144
The Selection and Care of Hatching Eggs	149
Artificial Incubation	153
Hatchery-management Problems	158
<b>7. REARING PRINCIPLES AND PRACTICE</b>	<b>164-193</b>
The Chick Supply	164
Types of Brooders	168
Desirable Brooding Conditions	168
Colony-brooding Methods	173
Continuous-brooding Methods	178

Rearing Young Stock on Range	182
Battery-brooding Methods	186
Commercial-broiler Production	189
Capon Production	191
<b>8. HOUSING AND YARDING PRINCIPLES AND PRACTICE</b>	<b>194-228</b>
Functional Requirements of Housing	194
Location of the Laying House	199
Essentials of a Good House	202
Laying-house Construction	206
Laying-house Equipment	211
House-management Practices	219
Keeping Layers in Cages	225
<b>9. FEEDING PRINCIPLES</b>	<b>229-259</b>
The Nutrients	229
The Digestion of Nutrients	242
The Metabolism of Nutrients	245
Excretion	247
Energy Production	248
Nutritive Requirements for Maintenance	249
Nutritive Requirements for Growth	250
Nutritive Requirements for Fattening	256
Nutritive Requirements for Market-egg Production	257
Nutritive Requirements for Hatching-egg Production	259
<b>10. FEEDING PRACTICE</b>	<b>260-300</b>
Water	260
Carbohydrate Feedstuffs	261
Animal-protein Supplements	264
Plant-protein Supplements	267
Mineral Supplements	269
Vitamin Supplements	271
Miscellaneous Feedstuffs	274
Factors Affecting Selection of Feedstuffs	276
Mash and Scratch Formulas	280
Methods of Feeding	283

Feeding Young Stock	286
Fattening Chickens	289
Feeding Laying Stock	292
Feeding Breeding Stock	299
<b>11. DISEASE PREVENTION AND CONTROL</b>	<b>301-328</b>
External Parasites	302
Internal Parasites	305
Protozoan Diseases	308
Bacterial Diseases	310
Virus Diseases	317
Other Diseases	326
Minor Disorders and Other Conditions	326
