## TABLE OF CONTENTS

### CHAPTER I

<b>INCUBATION</b> .....	<b>1-21</b>
Selecting Eggs for Hatching Purposes	
Basis for Egg Selection	
Care and Holding of Hatching Eggs	
Incubation Principles	
Proper Temperature	
Proper Humidity and Adequate Ventilation	
Turning of Eggs	
Sanitation	
Temperature of Incubation Room	
Quality of Eggs	
Quality and Condition of the Breeding Stock	
Personal Attention and Interest	
Embryonic Development	
Changes Day by Day	
Incubation of Chick Embryo by Days	
Fetal Membranes	
Malpositions of Embryos	
Hatching Periods	

### CHAPTER II

<b>HATCHERY PRACTICES</b> .....	<b>22-53</b>
Type and Location of Incubator Building	
Purchase of Incubator	
Installment Buying	
Egg Judging Score Card	
Number of Eggs to Set	
Testing Thermometers	
Correcting Separations of Mercury in Thermometers	
Candling	
Fertility Determination	
Traying Eggs	
Custom Hatching	
Hatching Pedigreed Stock	
Overheating and Underheating	
Effects of Temperature Levels on Rate of Embryo Growth	
Removal of Hatch	
Ventilating Chick Boxes	
Storage Brooders	
Business Records	
Operating Costs	
Incubation Costs	
Service	
Quality Chicks	
Score Card for Judging Chicks	
Advertising	
Factors for Success in the Hatching Business	

CHAPTER III	54-82
BROODING PRACTICES.....	

- Brooder Systems
  - Portable Colony Brooding System
  - Permanent Brooding System
- Brooder Appliances
  - Heating Units
  - Feeding Units
  - Water and Milk Devices
  - Appliances of Convenience
- Principles of Brooding
  - Disease-Free Chicks, Healthy Breeding Stock
  - Maintenance of Proper Temperature
  - Fresh Air, Ventilation Control
  - Keep the Chicks Busy
  - Safety from Fire
  - Dryness
  - Sanitary Conditions
  - Proper Feed and Management
  - Litter
  - Proper Housing and Ease of Attendance
  - Protection from Weasels, Rats, Etc.
  - Skillful Operation
- Chick Mortality
  - Rearing Expectancy
  - Purchasing Chicks
  - Confinement Brooding
  - General Practice
  - Brooder Houses

CHAPTER IV	83-106
BATTERY BROODING AND LAYING CAGES.....	

- Battery Brooder Room
  - The Operation of Battery Rooms
    - Temperature
    - Ventilation
    - Humidity
  - Operation of Batteries
  - Management of Chicks Brooded in Batteries
  - Quality of Stock
  - The Use of Batteries for Storage
  - The Cost Factor
  - Chart for Computing Battery Capacity
  - Considerations in the Purchase of Batteries
    - Knowledge and Skill of the Operator
    - Troubles Encountered in Battery Brooding
  - Laying Cages
    - Management of Laying Hens in Cages
    - Seven Essentials of Cage Management
      - Good Housing
      - Good Birds
      - Good Feeds
      - Sanitation
      - Replacements
      - Disease Prevention
      - The Personal Factor
  - Mortality
  - Breeding Caged Layers
    - Details of Method
    - Artificial Insemination
  - Precautions to Be Observed

CHAPTER V	107-116
BROILER PRODUCTION.....	

- The Economics of Broiler Raising
  - Feed Consumption per 100 Chicks
  - Per Cent of Total Production Costs
  - Cost of Producing Seasonally
  - Weight Related to Profit
  - Fuel Costs
  - Breeds Suitable for Broiler Production
- Management
- Marketing Broilers
- Cost and Profit

CHAPTER VI	117-125
CAPONS AND CAPONIZING.....	

- The Capon
  - Breeds Suitable
  - Time and Age
  - Instruments and Materials
  - Preparing Birds for the Operation
  - The Operation
  - Care and Feed After Operation
  - Slips and Mortality
  - Hormones
- Killing, Dressing and Marketing
- Capon Commercialization and Its Problems

CHAPTER VII	126-142
PRINCIPLES OF FEEDING.....	

- Object of Feeding
- Nutrients and Their Sources
  - Water
  - Protein
  - Carbohydrates
  - Fats
  - Minerals and Grit
  - Vitamins
- Composition of Feedstuffs
- Digestion
  - Outline of Digestion
- Metabolism
  - Carbohydrate Metabolism
  - Protein Metabolism
  - Fat Metabolism
  - Mineral Metabolism
- Balanced Ration
- Nutrient Allowances for Poultry
- Animal Versus Vegetable Protein
- Formulation of a Ration
  - Adaptability
  - Palatability
  - Mechanical and Physical Condition
  - Effect on Product
  - Variety
  - Cost
- Rations
- Feeding Experiments by Poultrymen
- Factors Influencing Feeding Results

CHAPTER VIII

FEEDING CHICKENS.....143-153

- Time to Feed
- What to Feed
- How to Feed
- Where to Feed
- Varying Nutrient Requirements in Floor Versus Battery Brooding
- Feed Requirements of Poultry
- Hoppers and Hopper Space
- Size of Grain
- Clean Feed and Water
- Grading Pullets According to Feeding Needs
- Feed Consumption and Growth
- Rations

CHAPTER IX

FEEDING ADULT BIRDS.....154-167

- Methods of Feeding
  - Grain and Mash Method
  - Hopper Feeding of Grain
  - Litter Feeding of Grain
  - All-mash Method
  - Pellet Method
- Supplementary Feeding
  - Moist Mash
  - Fleshing Mash
- Artificial Illumination
  - Amount of Light
  - Length of Day
  - Maintain Body Weight
  - Factors Affecting the Success of Artificial Lighting
- Feeding Molting Birds
- Feeding Breeding Birds
- Feed Consumption
- Effect of Feed on Product
- Scratch per 100 Layers
- Rations

CHAPTER X

REARING AND RANGE MANAGEMENT.....168-182

- Range Rotation
- Location of Range
- Summer Shelters
- Colony Houses
- Roosting Capacity
- Separation of Sexes and Culling
- Tattooing
- Types of Waterers
- Hoppers
- Feed Consumption and Growth
- Shade
- Nesting Provisions
- Mites and Lice
- Transferring Stock to Laying Quarters

CHAPTER XI

SELECTION .....183-203

- Time to Select
- Points to Consider in Selection
  - Vigor
  - Breed Type
  - Head
  - Body Conformation
  - Proportionate Measurements
  - Quality
  - Pigmentation
  - Molt
  - Temperament
  - Broodiness
  - Condition of Comb, Vent and Abdomen
  - Precocity or Early Sexual Maturity
  - Physical Maturity
  - The Use of Trapnest Records in Selection
  - Disqualifications and Standard Qualifications
- Selecting Male Birds
- Culling
- Comparison of Characteristics of Good and Poor Producer
- Glossary of Selection Terms.

CHAPTER XII

BREEDING AND SEX DISTINCTION.....205-230

- Principles of Inheritance
- Aims in Breeding
- Types of Matings
  - Single-male
  - Multiple-male
  - Artificial Insemination
- Collecting Eggs for Hatching
- Methods of Breeding
  - Physical Selection
  - Pedigree Breeding
  - Progeny Testing
- Systems of Breeding
  - Inbreeding
  - Crossbreeding
  - Linebreeding
  - Outcrossing
- Inheritance of Egg Production
  - Rate of Sexual Maturity
  - Persistency
  - Intensity
  - Broodiness
  - Pause
- Inheritance of Egg Characteristics
  - Egg Size
  - Egg Shell Color
- Inheritance of Rate of Growth
- Inheritance of Rate of Feathering
- Inheritance of Livability
- Inheritance of Other Characteristics
- Fertility
- Hatchability
- Heritable Characteristics (U.S.D.A. table)

Sex Distinction  
 Sex Linkage  
 Plumage and Down Color  
 Rate of Feathering  
 Color Sexing  
 Physical Examination  
 Dominant and Recessive Characteristics

CHAPTER XIII

TRAPNESTING AND PEDIGREEING.....231-242

Advantages of Trapnesting and Pedigreeing  
 Disadvantages  
 Who Should Trapnest and Pedigree  
 Pedigree Breeding Practice  
 Selection  
 Trapnesting  
 Pedigree Hatching  
 Progeny Testing  
 Records  
 Aids in Record Keeping  
 Simplified Record Keeping

CHAPTER XIV

IMPROVEMENT PROGRAMS.....243-311

The Development of a National Plan  
 National Poultry Improvement Plan  
 National Turkey Improvement Plan  
 Standard Egg Laying Contests

CHAPTER XV

MARKETING.....312-354

Methods of Marketing  
 Direct to Consumer  
 Selling to Retailer  
 Commission Merchants, Wholesalers and Jobbers  
 Co-operative Marketing  
 Hucksters  
 Auction Selling  
 Miscellaneous Channels  
 Preparation of Poultry for Market  
 Methods of Killing  
 Dressing  
 Wax Picking  
 Drawing  
 Dressing and Drawing Loss  
 Selling Live Versus Dressed Poultry  
 Tentative U. S. Standards  
 for Classes and Grades of Live Poultry  
 Definition of Market Terms  
 Marketing Eggs  
 Official U. S. Egg Standards  
 Tentative U. S. Wholesale Grades  
 Tentative U. S. Consumer Grades  
 Cleaning Dirty Eggs  
 Grading Eggs and Candling  
 Cartoning and Packing  
 Egg Marketing Programs  
 Salesmanship

CHAPTER XVI

FATTENING.....355-360

Systems of Fattening  
 Feed Ingredients Commonly Used  
 Size of Birds  
 Rations  
 Marketing Fattened Birds

CHAPTER XVII

HOUSING AND APPLIANCES.....361-407

Requirements of Housing  
 Shelter  
 Ventilation and Humidity  
 Water Carrying Capacity of Air  
 Temperature  
 Light  
 Space Allotment  
 Nutrition  
 Types of Houses  
 Types According to Roofs  
 Types According to Use  
 Interior Arrangement and Equipment  
 Auxiliary Buildings  
 Feed Room  
 Egg Room  
 Manure Shed  
 Killing Room  
 Storage Building  
 Construction Room  
 Incubator Room  
 Battery Brooding Room  
 Building Materials and Cost of Construction  
 Plan  
 Bill of Material  
 Materials  
 Cost and Permanency

CHAPTER XVIII

MANAGEMENT FACTORS.....408-455

Capital Requirements  
 Location and Type of Farm  
 Factors Influencing Profits  
 Type and Size of Business  
 Breed and Strain  
 Rate of Egg Production  
 Efficiency of Labor Utilization  
 Efficient Handling of Capital  
 Efficiency of Feeding  
 Efficiency Program  
 Culling  
 Mortality  
 Personal Factor  
 Management Considerations  
 Cash or Credit Buying  
 Annual and Monthly Egg Production  
 Labor Requirements

The  
attem

manag

- Cost of Production
  - Cost of Producing Eggs
  - Cost of Producing Broilers
  - Cost of Producing Mature Birds (Pullets and Breeding Males)
- The Poultry Account
  - Keeping the Farm Record

### CHAPTER XIX

#### POULTRY DISEASES.....456-489

- Infectious Laryngo Tracheitis
- Coryza
- Bronchitis
- Respiratory Form of Cholera
- Newcastle Disease
- Chronic Respiratory Disease
- Avitaminosis A
- Pressure Necrosis of the Mandible
- Coccidiosis
- Crazy Chicks
- Pullorum Disease
- Omphalitis (Navel Disease)
- Slipped Tendon Disease
- Epidemic Tremors
- Rickets
- Blackhead
- Sour Crop
- Fowl Pox
- Botulism
- Worms
- Leucosis
- Cholera
- Blue-Comb Disease
- Typhoid
- Tuberculosis
- Internal Layers
- Prolapse
- Mites
- Lice
- Post-Mortem Examination

### CHAPTER XX

#### EGG FORMATION.....490-494

- The Ovary
- The Oviduct
  - Funnel
  - Albumen-Secreting Portion
  - Isthmus
  - Uterus
  - Vagina
  - Cloaca and Vent
- Passage of Egg Through Oviduct

### CHAPTER XXI

#### CLASSES, BREEDS, VARIETIES, STRAINS.....495-511

- Class
- Breed
- Variety

x

- Strain
- Standard Classification
- Vigor
- Beauty and Utility
- Common Defects and Disqualifications
- Standard Weights

### CHAPTER XXII

#### TURKEY PRODUCTION.....512-534

- Breeds
- Incubation
- Brooding
- Relation, Size Flock to Feed Consumption
- Grow-Healthy Poultry Program
- Rearing Management
- Breeding Farms
  - Labor Requirements
  - Egg Production
- Turkey Rations
- Selection of Breeding Birds
- Marketing
- Turkey Production Trends
- Tentative U. S. Standards for Dressed Turkeys
- Cost of Raising Turkeys

#### INDEX.....535
