

Broiler Breeder Production

S. Leeson and J.D. Summers

SPONSORS

We are indebted to the following companies for their financial support. This support has helped us subsidize the cost of publication, such that hopefully the book will be available to a wider segment of the international Poultry Industry.

TABLE OF CONTENTS

- Chapter 1 Industry development, genetics and breeding programs
- Chapter 2 Reproduction
- Chapter 3 Lighting
- Chapter 4 Health Management
- Chapter 5 Nutrition and feeding
- Chapter 6 Environmental control
- Chapter 7 Brooding and management of the growing pullet and rooster
- Chapter 8 Management of adult breeders

INDEX

A

Air speed 239
Albumen quality 311
Amino acid
 model prediction 161
 requirements 143
Antibiotics 91, 114
Antibodies 69
Anticoccidials 91, 94, 108
 hatchability 95
Antigens - E. coli 80
Antimicrobials 91
Artificial insemination 38, 41
 commercial use 43
 costs 46
 timing 42
Avian Rhinotracheitis 128
Aspergillosis 133
Avian influenza 128

B

Bacterins 117
Beaktrimming 262
Behavior
 aggressive 37
 mating 36
Biomittent lighting 52
Biosecurity 67, 83, 294, 296
 costs 87
 levels 86
Black-out housing 232, 290
Blood sampling 91
Body composition 170
Body temperature 219
Body weight 169, 187, 263
Boric acid 103
Breeder hen nutrition
 amino acids 176
 body weight 179, 187
 broiler growth 213

 calcium source 194
 challenge feeding 180
 egg production 178
 eggshell quality 192, 195
 energy 172, 175
 feed clean-up 188
 feed efficiency 195
 feed withdrawal 184
 hatchability 204
 lead feeding 179
 protein effects 177
 separate sex feed 191
 temperature 173
 time of feeding 190
Breeder traits 14
Breeding programs 15
Breeds 3
Broiler traits 6, 14
Broiler industry 4
Broodiness 30
Brooding 247
Building design 227, 259, 289, 301
 blackout 232
 evaporative cooling 240
 humidity 231
 insulation 228
 open-sided 235
 static pressure 233
 vapor barriers 232
Bursa of Fabricius 68

C

Caged breeders 193
Calcium
 prebreeder 167
 source 194
Carcass composition 156, 157
Challenge feeding 180
Chick Anemia Virus 126

Chick costs 18
Chlorine 89
Clutch length 24
Coccidiosis 108, 160
 vaccines 81
Coccidiostats
 (see Anticoccidial)
Coefficient variation 272
Colibacillosis 131
Competitive exclusion 121
Controlled environment 290
Culling 45
Curtain houses 235

D

Daily feed restriction 149, 152, 158
Darkling beetle 103
Diet specifications
 breeder 142
 grower 140
 prelay 141
 starter 139
Disinfection 88
Drinker type 258
Dubbing 200, 254
Dust
 air speed 239
 environment 226
 ventilation 236
Dwarf breeder 13

E

Early dead embryos 41
E. Coli
 infection 116
 vaccination 80

Egg

 appearance 312, 315
 breakout 46
 cleaning 318
 collection time 307
 handling 318, 323
 mass 182

 production
 costs 325
 nutrition 178
 sanitation 320
 size 312, 314
 storage 321
 structure 309
 transportation 323
 weight 27, 170
Egg Drop Syndrome 127
Eggshell
 quality 192, 195, 316
 structure 310
 thickness 190
 weight 27
ELISA 70, 96, 120
Embryo
 deficiency symptoms 207
 mortality 48, 210
Encephalomalacia 125
Energy-diet
 body weight 187
 breeder needs 172
 carcass composition 157
 feed intake 286
 partition 175
 requirements 183
 reserves 156
 temperature 160, 173, 188
Environmental control 218
Epidemic Tremor 125
Equipment 295, 297
Erratic ovulation 10
Evaporative cooling 240, 290

F

Feathering 274
Feed
 clean-up 188
 efficiency 153, 195
 intake 286
 management 255
 restriction 147, 148, 158
 scheduling 154

supply 253
 timing 190, 223
 withdrawal 182

Feeder
 design 303
 exclusion grill 304
 space 244
